BRIEF INFORMATION ABOUT THE ACTIVITY (): **Annual Department Magazine of Biological Sciences "Verdure"; Second Edition**

TOPIC/SUBJECT OF THE ACTIVITY	<b>Annual Magazine of Biological Sciences "Verdure"</b>
OBJECTIVES	Verdure is the annual departmental magazine of Biological Sciences which was brought into existence in 2017 with the aim of giving the students a creative medium to express themselves. The content of the magazine ranges from reports of intriguing scientific discoveries to interviews, socially relevant articles, facts, puzzles, and even career related guidance.
METHODOLOGY	The editorial board, comprising of student editors and designers along with faculty editors overlook the entire editing, designing and compiling process. Submissions are invited from all the students of the department and include articles, interviews, internship experiences, artworks, poems, etc.
OUTCOMES	The editorial team brings out a magazine every year, generally with a central theme around which the cover, illustrations and most of the articles are centered. This year the theme of the magazine is "The Heart and The Brain". The magazine tries to show that knowledge is limitless. The heart here is shown to be a pump of intelligence. More the intelligence and understanding spreads, more we realize how little we know, and how deep, vast and complex the world around us is, just like the unfathomable universe. The magazine serves as a representation of what the department of biological sciences stands for; science, creativity and freedom.
