EVENT REPORT

Event- Phoenix Magazine release with an international webinar on ‘Evolution: The most important theory of biology.’

Date- 4th March 2022

Timings- 5:30 pm - 7:50 pm

Mode- Online

Venue- Zoom Platform

Objective-The objective of this event was to celebrate the 10th edition of Phoenix- the Departmental magazine. By organising competitions and mental health-based activities along with the international webinar, the main motive was to enlighten attendees with an interactive event that combined both creative and intellectual minds.

Phoenix, the Zoological Magazine Society of Sri Venkateswara College, University of Delhi hosted their **Annual Magazine release** on 4th March 2022. Along with mental health-based activity and a quiz competition, the society also organised an international webinar on ‘Evolution: The most important theory of biology,’ delivered by Dr. Douglas Futuyma. The activities and the webinar were hosted through the online mode on Zoom Platform.

The event began at 5:30 pm with the official magazine release, followed by a talk on ‘Evolution: The most important theory of biology,’ given by **Dr. Douglas Futuyma, Professor in the Department of Ecology and Evolution, University in Stony Brook, New York, United States of America.**

Dr. Douglas Futuyma’s talk focussed on the significance of evolution and the various theories regarding it. The webinar proved to be a successful medium for people to learn more about the history of evolution from such a renowned personality. It showcased areas that were still under research and required further studies whilst providing hope to the audience. Overall, the talk uplifted both the intellectual aspect of the mind and the social aspect. His talk ended with a question answer session, making the event interactive and inquisitive. The collected feedback was highly positive and encouraging.
