## EVENT REPORT

Event- Phoenix Magazine release, with an international webinar on 'Evolution: The most important theory of biology.'

Date- 5th March 2022

Timings- 5:30 pm - 7:50 pm

Mode- Online

Venue- MS Teams Platform

Objective-The objective of this event was to celebrate the 10<sup>th</sup> edition of Phoenix- the Departmental magazine. By organising activities, competitions and mental health-based activities along with the international webinar, the main motive was to enlighten attendees with an interactive event that combined both creative and intellectual minds.

**Phoenix, the Zoological Magazine Society** of Sri Venkateswara College, University of Delhi hosted their **Annual Magazine release** on 4<sup>th</sup> March 2022. Along with an international webinar and a quiz competition, a mental health-based activity titled "Destress to Refresh" delivered by Ms. Eti Goel was also held. The interactive session was hosted on MS Teams through an online mode.

The event began at 11:00 am and was held for an hour. The enriching hour bestowed various techniques which helped the audience to grow emotionally more sound with their feelings.

The session discussed various methods of expression of one's emotions and feelings. Allowing a more accepting and open environment for people to grow themselves in. Through this interactive session, people grew more confident, more expressive and more enlightened. The collected feedback was highly positive and encouraging.
