EVENT REPORT

Event - A seminar on "Post - Covid Workplace Ergonomics And Hearth Health" in association with Indraprastha Apollo Hospitals, Delhi

Date- 19th October 2022

Timings- 10:00 am - 12:00 pm

Mode- Offline

Venue- Seminar Hall, Durgabai Deshmukh Block, Sri Venkateswara College

Objective -The objective of this event was to educate students on the importance of correct postures and workplace ergonomics post pandemic along with heart health. The seminar entailed two talks, one focusing on workplace ergonomics and daily life postures. The second talk imparted vital knowledge on heart health and the increased rate of heart related issues in the young.

Evolvere, the Zoological Society of Sri Venkateswara College, University of Delhi hosted a **Seminar Talk** on 19th October 2022. The interactive and multidisciplinary session was hosted on the college premises in offline mode.

The event, consisting of two talks, began at 10:00 am and lasted two hours. The initial enriching hour instigated a plethora of aspects, ranging from workplace related posture issues to daily life postures. The session was highly interactive with the audience participating in certain physiotherapy related exercises. The second insightful talk focused on the increased rate of heart health related issues in the younger population. The talk stimulated minds of the faculty and brought light to an increasingly important issue. This helped the audience to grow an understanding of both the science behind their health and emphasize the urgency for proper health care measures.

The session discussed various new applications and advances on improving daily habits which would be beneficial for one's health. Being important and common to all, the talk provided a basis and connection to the audience and aided in their holistic growth. Through this interactive session, students and faculty developed a deeper understanding of workplace ergonomics and heart health. The collected feedback was highly positive and encouraging.
