Summary Report

The trip began at 9:30 am when the bus journey began towards the destination. Each one of them was cheerful and singing out loud. The weather was perfect with cloudy sunshine and breezy air. The students were excited and elated to experience something new.

Having reached the destination, we received warm welcome with soft drinks and snacks. The view was marvelous. Everyone headed inside, towards the farmland and experienced the different aspects of nature. The camel ride and the cart-ride was a new experience for everyone. The best things were the Magic show and the Pottery making, where each student made something of his wish out of mud clay. That was interesting and real fun.

Then they played sports like badminton and tug of war. The spirit of teamwork and determination, they all showed brought light to the moment. The volunteers helped each other very cooperatively. They also had a good match of Cricket. After which everyone had their lunch which had many varieties. The food was flavoursome that delighted everybody. Then they experienced the lake view and danced on the DJ. Then followed a cultural dance performance. The music and the beats of the melodious song impassioned everyone. That was the best part of the day.

At 5:30 pm, we began our return journey and reached the college campus within few hours. With this the day ended, everyone was tired of the travel and the adventurous activities. But they all had a very good time which was not only memorable but also momentous.

The trip fulfilled its motive, which was to entertain everybody and let them experience new aspects of adventure. The sense of responsibility and the spirit of teamwork, they all reflected, was the evidence of the fact that no disability can define a person who they are.
