Criterion II	Teaching Learning & Evaluation	Criterion VI	Governance

Criterion III	Research, Innovations & Extension	Criterion VII	Institutional Values & Best Practices
Criterion IV	Learning Resources and Infrastructure		

Neel Metal Products Ltd (NMPL)

A company visit was organized for the students of commerce department on 31st August, 2019 to Neel Metal Products Ltd (Sector-36, Gurugram). Dr. Shruti Mathur, Dr. Neha Singhal and Mr. Aashish Jain took the initiative of planning the visit and taking 35 students there.

Neel Metal Products Ltd was founded in 1983 and the name 'NEEL' is derived from the promoter's wife name Mrs. Neelam. They have 60 manufacturing sites. They are established in 25 different countries. In 1983, they started with the production of LPG cylinders and with time, they diversified into various fields and they started steel processing in 2002. In 2013, they entered the line of renewable energy and have 4 solar plants. They have worldwide alliances such as USA, Japan etc. They took the initiative to go green and for that they have green belts all across the complex, water harvesting system, sewage treatment plant, green smoking zones, spittoons and solar streetlights.

They have 6 different units and we visited NEEL-1 only due to the safety measures. NEEL-1 is a steel service centre. It has production technologies like blanking lines, slitting line and progressive line. We saw the process of blanking, slitting and progressive line and how the waste products are used and how it is collected at one point. Key products of NEEL-1 are outer panel blank, profile blank etc.

The main motive of the company visit was to learn and see the workings of manufacturing unit. It is necessary for commerce students to experience the manufacturing process because if a student is interested in finance then he/she should know that it is necessary for them to visit plant to inspect the inner workings and ensure proper utilization of resources, as inefficiency at one plant or non-utilization of resource can become a reason for the loss of company as that resource can be used at another plant, where it is required. For a student interested in HR, it is necessary as HR has to ensure the proper working of manpower and wherever required, to hire more people. In case of inefficiency of workers, he/she has to motivate them to avoid losses. For the students interested in marketing, they learnt that why marketing manager needs to visit manufacturing units. He/she has to ensure that products are manufactured according to needs and requirements of the customers and the products manufactured are according to the demand of the current market. Overall, it was a good experience for everyone and students were able to learn a lot of things.
