FINANCIAL SUPPORT/ASSISTANCE (if any):	Sri Venkateswara College, University of Delhi		

BRIEF INFORMATION ABOUT THE ACTIVITY

TOPIC/SUBJECT OF THE ACTIVITY	Online Orientation Program for B.Sc. (Hons) Electronics Students admitted in the Academic Session 2021-22
OBJECTIVES	The Objective of the orientation program organized by the teachers and students of the Electronics department was to welcome the students to the college and the department who would join us in the academic year 2021-22. The main purpose of the orientation was to make the new students aware of the course curriculum, the examination system/evaluation mechanism, the importance of attendance in pedagogy, and also help them know their fellow batchmates, seniors, and most importantly, their teachers. It was meant to solve their queries through a live interaction along with a little informal session to make

	them feel comfortable and lessen the feeling of missing out on the fantastic offline college experience.
METHODOLOGY	The orientation was conducted online through MS Teams. It was done in the form of a PowerPoint presentation and also was in the form of a two-way interaction where the students could directly ask their questions and involve themselves in the discussion. The presentation was handled by our TIC Dr. Sunita Jain Ma'am and the curriculum was explained by her extensively.
INVITED SPEAKERS WITH AFFILIATION DETAILS (IF ANY)	NA
OUTCOMES	The major outcome of the event was that the new students became well versed with the course curriculum, the examination system/evaluation mechanism, the importance of attendance in pedagogy, department events, different societies, etc. They were able to clear all their doubts and queries and were very well introduced to their seniors, batchmates, and teachers.

Criterion II	Teaching Learning & Evaluation	Criterion VI	Governance
Criterion III	Research, Innovations & Extension	Criterion VII	Institutional Values & Best Practices
Criterion IV	Learning Resources and Infrastructure		

PROOFS

Summary Report :

The webinar commenced with an introduction by Dr. Sheela Reddy, principal of SVC. She welcomed the students with encouraging and exuberant words followed by a briefing about the college. Moving on, Dr. Sunita Jain explained about B.Sc. (H) Electronics and shredded the light on the curriculum and CBCS course structure. She also explained the examination system/evaluation mechanism and the importance of attendance in pedagogy. Furthermore, she discussed the facilities available to the students of the Department of Electronics, including laboratories, library, support groups, etc. Various department activities like freshers' parties, webinars, fests were also discussed.

The webinar was hosted by the students of the second and third years. Department teachers were introduced to the students and each faculty member elucidated about their subjects and the overall course. Students were encouraged to participate whole-heartedly in any upcoming webinars, skill development programs, fests, and industry-related events in association with the Department of Electronics. Following the discussion on curricular activities, a Q&A session was conducted. Students directed various doubts and queries which were resolved by faculty members as well as the senior students.

Following the discussion on the course curriculum, the students were also presented with the opportunities to go beyond the degree in order to engage themselves in various fields. A brief presentation about various functioning societies of Sri Venkateswara College was hosted by the students associated with respective societies. This was aimed to prompt the newcomers to participate in extra-curricular activities to further develop their personality and expertise.

Towards the end, third-year students conducted an informal ice-breaker session to make students feel comfortable. 'Guess the movie' gained a lot of attention as students continued to work out answers based on fads and trivia.

The Orientation Program was quite interactive and received an overwhelming response from the Department of Electronics. Students were encouraged to contact any of the faculty members or their seniors in case of further doubts. Department of Electronics looks forward to hosting more knowledgeable sessions to support its students.

Notice
