Criterion IV	Learning Resources and Infrastructure		

Proofs**ACTIVITY REPORT**

Every year, the Department of Electronics, Sri Venkateswara College, proudly hosts its annual festival – “Amplifier”. The event is filled with exciting competitions and insightful talks and lectures. It is an extravaganza for all tech-enthusiasts. Like everything else in the world, this edition of Amplifier was far from normal. Numerous challenges in the form of communication with participants, hosting events, etc. came our way. However, no obstacle was big enough to stop the people behind the event from making it a big success. Despite all the challenges, Amplifier 2021 was unarguably as impactful, if not more, than its previous editions. With the hard work and efforts of the entire department, Amplifier offered three exciting competitions for the students to participate in. These included Digital Poster Making competition, Technical Writing Competition and Online Treasure Hunt. The digital poster making and technical writing competitions invited students to present their ideas and opinions on a variety of pulsating topics like virtual vs real trip, evolution of google maps, effects of games and simulation, digital currency, artificial intelligence among many others. While on the other hand, the Online Treasure hunt aimed to challenge the problem solving and intellectual bug in the students. Therefore, needless to say, this event was filled with interesting competitions, exciting prizes and most importantly, a lot of learning opportunities for us as well as the participants.
