Dear Colleagues,

You have been appointed as Convener/Examiner of the paper for I/III/V Semester of B.Sc. (H) Physics/B.Sc. Prog. to be held in Nov./Dec. 2023. The deadline for submitting the question paper sets is **November <u>02</u>, 2023.**

It may be noted that as per the University ordinances, it is mandatory for a teacher to perform the assigned examination duty. It has been observed that some teachers decline the examination duty at the last moment without giving any serious reason (and relevant documents such as medical papers or approved leave from the College etc.) which undermines the examination process. If any examiner refuses, then he has to inform the Head of the Department and the Dean of Examination (Email..dean_exam@du.ac.in) by e-mail within 1 day with valid reason and associated documents.

Benefits for Students:

Biodiversity conservation has become an imminent issue for tackling climate change, practise sustainability and keep the natural world intact for future generations. Theoretical knowledge based on offline lectures do provide an overview of how conservation works, however, the ground realities are very different. By participating in this course and interacting with experts from different fields of conservation and research, participants became aware of the ground realities, challenges and possible solutions to tackle the issues of present day biodiversity losses. They will be able to make an informed decision on their further career as well as personal life styles, to support the global action for conservation. We introduced them to the different methods and techniques being used globally to study nature, analysing and interpreting the data and its reporting. These learnings are not restricted only to the field of wildlife conservation, but all other sectors of professions globally. The students will be able to identify their key stakeholders, designs projects and review their own findings for conflict resolution and better management.
