Our reciter effectively demonstrated the potential of compounding and efficient corpus management. Our acclaimed presenter also proposed changing the default scheme from time to time, which raises awareness among audiences about the need of selecting the correct investment plan. The speaker also told the audience about a few investment options that they may select when modifying the default plan.

A few handouts were also distributed to the audience to get a better hold of the topic. Audience asked many queries and clarified their doubts on significant issues related to the schemes.
