ANALYSIS OF STUDENTS' FEEDBACK

ON VARIOUS ASPECTS OF COLLEGE LIFE

2017-2018

It has always been our endeavor to improve the academic as well as non-academic atmosphere in our college. Needless to say, the feedback of students, who are one of the most important stakeholders in the process, is an essential input in this exercise. Our teachers, administrative staff and other functionaries have a regular and continuous interaction with the students at various levels and in various capacities. Hence as an innovative exercise, we carried out a sample survey to gauge the perceptions, aspirations, expectations as well as the problems that the students face in our college. The objective of this exercise was to obtain the feedback and constructive suggestions from the students to help us chart out action plans for betterment of the college. A structured questionnaire was developed and administered across departments and across batches. Every course that is taught in the college was covered in the survey and to each of the departments a set of ten questionnaires were given to be distributed amongst students of all the three years. The students were given total privacy while responding to the questions and were requested to give their frank opinions about all the matters raised..

The Coordinator, IQAC presented the activities carried out in the academic year 2016-2017.

The Committee recommended taking the following steps to improve the quality of the College :

1. At the beginning of the academic year, a College Almanac with a repository of academic events including meetings, extracurricular events, internal mid semester examinations, research projects and study tours/field trips/excursions should be designed. An academic calendar in consultations with teacher in charges of respective departments could help college for effective time management.

2. Apart from providing a degree, college education should also focus on skill development programmes. Vocational courses can be offered and better still the college can aspire to become a leading institute in skill based courses.

PRINCIPAL
Sri Venkateswara College
Dhaula Kuan, New Delhi-110021

3. It was discussed that the IQAC should also evolve mechanisms for Internal Academic Audits of all the Departments. This will help to evaluate students' performance, teaching methodologies and identifying weaker students. It was suggested that remedial classes for weaker students will improve the performance for better results.

4. Orientation classes by faculty for higher studies/employment opportunities will guide and counsel students for better opportunities in higher education and employment.

5. The setting up of Language Lab was discussed for promotion of languages like Tamil, Telugu, Hindi and Sanskrit in the college. The labs will help students improve their language and communication skills.

6. Dr. P. Hari Prasad emphasized the need to generate funds from dignitaries (Donors) by conducting various meetings that can be used for overall development of the College. He also recommended a course on "English Language Proficiency" that will benefit students from weaker sections.

7. Dr. Rajiv Tandon emphasized on various measures to be adopted for the college to become visionary in this fast-changing world of education. He emphasized that the college must broaden its horizons to be able to compete with other global colleges. He encouraged the College to think out of the box. He said that this quality exercise should be taken as an opportunity to place the college in the global arena and to achieve for a deemed University status.

8. Ms Pawan Sharma emphasized the need to have a strong network of our alumni who can contribute hugely in presenting an impressive face of the institution.

9. The importance of embedding digital resources in various functioning of the College was discussed. The College also needs to develop E-resources for lectures, online quizzes, assignments. It was informed that development of E-Museums and e-Flora of the campus is already in progress.
