## REPORT

The Blood is one of the essential fluid in our body which helps the body to function smoothly. Blood donation is an act of donating healthy blood to needy people. The gift of Blood is the gift of life. It is also a sign of humanity that unites people irrespective of caste, creed, religion and more. In order to create awareness about this life saving procedure and supply blood to the blood bank, a blood donation camp was organised by NSS on February 12, 2024 in the college campus. A registration desk was set up at the college foyer from 10am to 4pm in order to attract and interact with more number of interested donors. Following registration, individuals underwent a brief medical screening to ensure their eligibility for blood donation. Eligible donors were then guided to the blood donation area i.e. college medical room where the trained medical staff conducted the donation procedure. The process adhered to strict hygiene and safety protocols. Post-donation, donors received certificates acknowledging their contribution to the noble cause. Refreshments were also provided to replenish their energy levels. The camp successfully increased awareness about the significance of voluntary blood donation. A substantial amount of blood was collected ensuring a readily available supply for patients in need. The Blood donation camp proved to be a commendable initiative, fulfilling its objectives of creating awareness and contributing to the blood bank. The event fostered a culture of voluntary blood donation within the community.
