REPORT

Water Conservation and Cleaning are critical aspects of environmental sustainability and public health. Due to factors such as poor urban development, pollution, climate change, and over-extraction, water conservation has become the need of the hour for the survival of civilization. In light of this, NSS-SVC organized a seminar on Project Amrit- “ Swachh Jal Swachh Man”, a Water Cleaning and Conservation initiative in collaboration with Sant Nirankari Charitable Foundation (SNCF) to spread awareness about this issue. This initiative resulted in an engaging discussion about water conservation, its current state demonstrated via the help of statistics, techniques implemented to save water, and how collective effort is the solution to this widespread problem. The seminar played a key role in helping the audience develop a greater understanding of the topic and encouraging people to take steps to contribute towards it.
