REPORT

As part of the annual flagship event of NSS Jaagriti, *TATVA: Elements of Nature* was held on 24th April 2024. This initiative focused on equipping participants with essential life-saving skills through two key workshops. The **CPR workshop** was led by Dr. Harmeet Singh, who provided comprehensive training using a projector and practical tools. Participants were guided through the steps of performing CPR, with emphasis on real-life application, ensuring they left the session confident in their ability to save lives during cardiac emergencies.

The **Fire Safety workshop**, held in collaboration with Prial India, took place on the main ground. This session involved live demonstrations on fire prevention and safety techniques. Attendees were trained in the proper use of fire extinguishers and learned effective response strategies to manage fire-related incidents.

The event also encouraged active participation and fostered a culture of safety and preparedness. By the end of the day, participants left with enhanced skills, a better understanding of emergency response, and a commitment to applying these practices in their daily lives. The workshops were met with positive feedback, highlighting the importance of such training in building a safer community.
