## REPORT

NSS-SVC, on September 04, 2024, collaborated with Sashakt Foundation to conduct an Awareness Session on Ovarian Cancer. The goal was to educate the participants about ovarian cancer—its symptoms, risk factors, and prevention strategies—and to highlight the importance of early detection and regular screenings.

The session incorporated various interactive elements to engage attendees, most notably physical exercise. Volunteers from the Sashakt Foundation actively encouraged all participants to engage in small sets of exercises, which were presented in a game-like format to maintain an energetic and enjoyable atmosphere. In addition to the physical activity sessions, the event included a variety of interactive activities such as quizzes and call-in segments. These activities were aimed at reinforcing the information presented and promoting a deeper understanding of ovarian cancer and its management.

Overall, the seminar succeeded in its goal of raising awareness about ovarian cancer and was well-received by the participants, who left with a greater understanding of the disease and a renewed commitment to their personal health.
