## REPORT

The NSS SVC survey at Sanjay Camp aimed to collect quantitative and qualitative data to understand the residents' challenges. Volunteers were divided into groups and conducted door-to-door interactions, gathering information on educational qualifications, family size, and other key aspects. In a compassionate and understanding manner, they discussed and documented specific difficulties faced by the community. The data was then systematically organised to facilitate the identification and analysis of challenges for effective solutions.

This initiative under Project Pahal provided volunteers with valuable on-ground experience, enhancing their understanding of community engagement and the social impact of their efforts. The data collected will serve as a crucial foundation for implementing initiatives to address the identified issues. Additionally, the experience nurtured a strong sense of collective responsibility, inspiring ongoing efforts to bring meaningful improvements to the lives of the residents of Sanjay Camp.
