## Report

The Eco Club of Sri Venkateswara College is a collective effort of passionate teachers and dedicated students who share a vision and sensitivity towards pressing environmental concerns. The Club organizes various programmes to facilitate both horizontal and vertical interactions between school children, environmental NGOs and researchers in the field of environment and ecology. On the occasion of National Science Day (28th February, 2019) The Eco Club of Sri Venkateswara College in association with Society for Environment and Development (SED India) organised Hands-on Training of Vermicompost for its students and faculty members. This talk was delivered by Dr Dinakaran, Member, Society for Environment and Development (SED India) with Interaction session. Sustainability has always been a prime focus for the Club, which has led to the setting up and maintenance of two compost pits within the college premises, making our campus a 'green' one indeed.
