The sir who spoke very well gave us the important information in such a short period of time and also answered our various doubts and questions. It was a fruitful and informative webinar. Thank you

It was informative and help me in lots of knowledge about the recent steps taken by the government and the world leaders to conservation of fossil fuels and generating energy from the renewable sources but i may be costly

It was a very Informative session.

I appreciate the initiative.

It was a great learning session organised by the Dept of Environmental Science and Eco Club Of Sri Venkateswara College. It definitely imbibed significant information about the present nature of the climate and played a major role towards making the people aware of various shortcomings.

It was a much needed discussion on an extremely relevant issue. However, such discussions should be a dialogue, an interaction between multiple people. This event felt a bit monotonous and could have been made more interactive.

I would like to give a suggestion that to conduct such sessions at least once in a month which will help us to make vigilant about our surroundings and environment. As a college students i think we should be more focused on this environment topic.

It was a very informative webinar. Got to learn new things and many other campaigns and agenda taken up by the government.

The presentation was very insightful.

The event was very helpful and interesting. I got to know about global warming and climate changes effects in Delhi and all over india and ways to overcome such problems.

It was very much informative, helpful and thought provoking in regard with the present environment conditions. Greatful to be a part of this webinar.

Very Good

Quite helpful...though all of us know these points, it's kinda reminder for all of us

Any overall feedback for the event?  
35 responses

It was good , Nice initiative and need of present condition

There was a slight glitch with the mic in the start, otherwise smoothly conducted

Nice and good presentation

Excellent event

Amazing and knowledgeable.

Overall the event helped me to expand my horizon of knowledge about climate change and governance towards a sustainable future.

No.

It was a very helpful event.

The sir who spoke very well gave us the important information in such a short period of time and also
