

SRI VENKATESWARA COLLEGE
(UNIVERSITY OF DELHI)

EVENT REPORT

NAME OF THE ACTIVITY: Orientation of Ecoclub		
DATE	DEPARTMENT/COMMITTEE	COORDINATORS NAME
03-12-2021	ECO CLUB	Prof. Vartika Mathur
TIME	VENUE	NUMBER OF PARTICIPANTS
4 PM	Google meet (online mode)	95

BRIEF INFORMATION ABOUT THE ACTIVITY

SUBJECT OF REPORT	Orientation
OBJECTIVES	The aim of the orientation is to provide information about the eco-club, how it works and what structure it has.
METHODOLOGY AND OUTCOME	The virtual orientation is conducted on 2 December 2021 at 4pm. The pictures and videos of college and thrust are used to have a better view about the structure of college. More than 80 freshers joined the meeting.
SUMMARY OF EVENT	The event was scheduled on google meet platform and was coordinated by the core team of eco-club, also the teacher's coordinator graced the event. The orientation was started with Saraswati Vandana. The webinar catered to over 80 participants. The moderator Gargi invited Dr. Vartika Mathur to introduce the students to the eco-club. The Teachers coordinator and core team is introduced to the students. The Teachers coordinator of every thrust explained about their thrusts. It was an interactive orientation. We used the videos to explain every thrust and showed the working to our eco-club. We had the green snapshot in which every participant had to bring plants near to them for the snapshot. Dr Abshiek Chandra announced the results of the slogan making competition and photography co competition.

Eco-Club

We here in college with our respected teachers create an environment where one can feel connected to nature and can sustainably protect it. We work together to improvise the ecological conditions and make this world greener and cleaner.

Poster of Orientation

✓

The poster features a background of a blue and white mountain range. At the top left is the Sri Venkateswara College logo, a circular emblem with a temple gopuram and the text 'SRI VENKATESWARA COLLEGE' and 'NEW DELHI'. At the top right is a logo of a green tree with a purple butterfly. The text 'ECO CLUB' is in large, bold, black letters. Below it, 'Sri Venkateswara College' is in a smaller black font. 'ORIENTATION '21' is in pink, and 'JOIN US !!!' is in pink. A yellow horizontal band contains the text 'FUN COMPETITIONS:-', 'SLOGAN WRITING - "ENVIRONMENT"', and 'PHOTOGRAPHY COMPETITION - "BOUNDLESS NATURE"'. A green horizontal band at the bottom contains the date '3RD DECEMBER 2021' and time 'AT 4 : 00 PM' in yellow, followed by 'REGISTRATION LINK IN BIO' and 'DEADLINE FOR THE REGISTRATION AND COMPETITIONS: 2 DEC 9:00 PM' in black, and 'STAND A CHANCE TO WIN !' in yellow. At the very bottom, 'Send your entries at - ecoclub@svc.ac.in' is in black.

Feedback Analysis (Student responses)

What were the student key takeaways from the session?

35 responses

I got to learn about the functioning of the eco club and the initiatives it had been/ is working on. I, as a nature lover found a lot of fields attracting my interests.

More knowledge about the different aspects such as carbon fingerprinting and vermicomposting. The different acknowledging research projects related all about environment. A perfect combination of innovative, research and fun loving ideas.

That we're trying to make change through pursuing small initiatives with broader outcomes

Robin sir's documentary

I have been a part of the Eco-Club at my school. When I signed up for the orientation, I expected events and activities similar to what I have grown used to while participating at the school-level. However, seeing the activities undertaken by the Eco Club here, I was surprised to find that it is much different from what I'm familiar with. The part that stuck with me was when a group of students-guided by Dr. Robin Suyesh--participated in a hands-on activity which required direct action towards helping the native fauna(amphibians). I had never witnessed anything like that before and was quite thrilled to find out that such an event was even accessible to students such as myself.

Robin sir's documentary

That I should be part of it

We as humans, the most conscious and intelligent species, have the duty to know our ecosystem properly and conserve it. We have taken so much from the other species that it's high time we start giving back. Eco club will be the right step to achieve this.

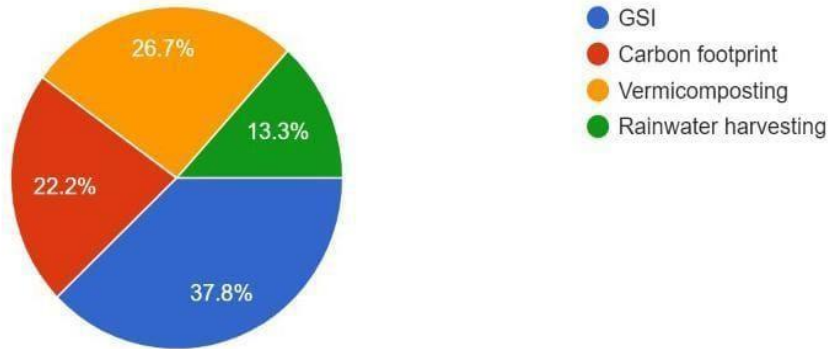

I think eco club is a great initiative for me to join. It'll not only help me learn new things but also give me a platform to showcase my skills. I'm especially interested in GSI as it helps spread the idea to younger people which is always great.

I learnt a lot about how I can contribute to save the environment by vermicomposting, preserving rain water.
The first animals i.e. amphibians all around the world are living in really harsh conditions and efforts are to be done to make a environment better place for them.
And to make the environment clean to make it a better place for humans too. As we are the ones to make the earth polluted so it's our moral duty to make the earth pollution free.

College is doing a lot. For environment and I also want to be a part of this and do something for environment
