**EVENT REPORT**

<b>NAME OF THE EVENT: Field Visit 3 - Sultanpur National Park</b>			
<b>DATE: 2<sup>nd</sup> October 2024</b>	<b>DEPARTMENT Environmental Sciences</b>	<b>COMMITTEE/SOCIETY</b>	<b>COORDINATORS' NAME Dr. Robin Suyesh</b>
<b>TIME 7:30 A.M to 1:00 P.M</b>	<b>VENUE Sultanpur National Park</b>	<b>NUMBER OF PARTICIPANTS 35</b>	<b>NATURE: Outdoor/Indoor; online/offline/hybrid  Outdoor</b>
<b>FINANCIAL SUPPORT/ASSISTANCE (if any):</b>			

**BRIEF INFORMATION ABOUT THE ACTIVITY**

<b>TOPIC/SUBJECT OF THE ACTIVITY</b>	<b>Field Trip to Gurugram Haryana: Sultanpur National Park (All students of BA Hons Sociology Third Semester: 2024-25 Batch)</b>
<b>OBJECTIVES</b>	Avian and other local Biodiversity Awareness Trip
<b>METHODOLOGY</b>	Field Trip
<b>INVITED SPEAKERS WITH AFFLIATION DETAILS ( IF ANY)</b>	
<b>OUTCOMES</b>	<p>Students visited the Sultanpur National Park on the outskirts of Gurugram, Haryana an ideal birding site as part of their academic curriculum to understand and learn about avian diversity of Sultanpur National Park. They learned how to use open source database on biodiversity ebird and inaturalist.</p> <p>They learned about bird identification, bird habitat preferences, bird vocalization and also threats faced by the birds.</p> <p>Some other local Biodiversity was also observed and identified. Detailed benefits below</p>

**PROOFS & DOCUMENTS ATTACHED (Tick mark the proofs attached):**

1 Notice & Letters ✓	2 Number of Participants & Name of participants ✓	3 Video clip	4 Photos ✓	5 Feedback Form & analysis
6 News clip with details	7 Sample Copy of the Certificate ✓	8 Posters/ Invites ✓	9 Event report Attested by ✓ Event Coordinator & IQAC Coordinator	10 Any other document

IQAC Document No: Departmental file no: EVS/2024-2025	Criterion No: IQAC file No: SVC/2024- 25
--	--

NAME OF TEACHER & SIGNATURE	NAME OF HEAD/ COMMITTEE INCHARGE & SIGNATURE	IQAC COORDINATOR (SEAL & SIGNATURE)
Dr. Robin Suyesh	Dr. Robin Suyesh	

## For Reference

Criterion I	Curricular Aspects (planning & Implementation)	Criterion V	Student Support & Progression
Criterion II	Teaching Learning & Evaluation ✓	Criterion VI	Governance
Criterion III	Research, Innovations & Extension ✓	Criterion VII	Institutional Values & Best Practices
Criterion IV	Learning Resources and Infrastructure		

**PERMISSION FOR ORGANIZATION OF EVENTS**

NOTE: 1. Please ensure a pre booking of the venue before getting the permission letter signed.  
2. A copy of this duly filled form signed by the TIC/ Convener, IQAC Coordinator and Principal shall be submitted to ICT and/or Caretaker for necessary action.  
3. Please ensure that the completion certificate of the event is physically signed by the Convener of the event, IQAC Coordinator and Principal after the event report is made.

**EVENT DETAILS**

1. Name of the Department/Society/Association: ..... Environmental Science
2. Name of the TIC and/or Convenor: Prof./Dr./Mr./Ms. .... Dr. R. Srinivas
3. Proposed Title of the Event: Field Visit (Local) AEC-I & II  
Undergraduate Students
4. Nature of Event: Seminar/Conference/Symposium/Workshop/FDP/Public or Community  
outreach/ Skill enhancement/others (Please specify) EVS Practical - Field  
Study.
5. Participants: Student-centric /Faculty/ Other stakeholders (Please specify) Student Centre
6. Event Type:  Offline/ Online/ Hybrid;  Indoor/ Outdoor
7. Collaborating Agency /Organization (If any): .....
8. Tentative List of Speakers with affiliations: Visit to Sultanpur Action Plan  
& Sarajpur Bird Sanctuary  
As part of Practical & Assessment  
of Environmental Science AEC I & II
- Date & Time (from - to): Starts 16 September 2024 - sun
9. Financial Assistance/ Funding received (if any) (Please specify amount): .....
10. Proposed Budget (please attach details in a separate enclosure): .....

12. Faculty responsible for Geo Tagged Pictures Dr. P. S. Sanyal / Dr. P. Sanyal

13. Faculty responsible for Event Report 11

14. ICT support required, if any (ICT Lab, Laptop, LCD projector) —

15. Caretaker support required (tables, chairs, public addressing system, sanitation, manpower assistance)

16. Venue requirement (Seminar hall/ Ground/others) Outdoor NH.

TIC/Convenor [Signature]  
Date: 13/9/2024

For official purpose  
Comments (If any)

[Signature]  
13/9/2024  
IQAC Coordinator  
Date:

[Signature]  
13/9/24  
Principal  
Date:

## **Benefits for Students:**

Field trips serve as a valuable teaching tool, providing an effective way to extend learning beyond the traditional classroom and into real-world environments. These excursions offer students hands-on opportunities to apply biological and ecological theories discussed in class. During our field study, we introduced various research methods, including acoustic identification, to enhance students' understanding of ecological concepts and data collection techniques.

Field experiences play a crucial role in enhancing students' synthesis of information, cognitive reasoning abilities, self-confidence, self-efficacy, and research collaboration skills. Actively participating as an integral member of a research team, where students contribute meaningfully, significantly boosts their confidence and sense of accomplishment. These field trips offer numerous benefits, including the opportunity to observe and study natural ecosystems firsthand, making learning more engaging and immersive. Such experiences provide invaluable hands-on learning opportunities, allowing students to develop essential field research skills, engage in active participation, and critically examine real-world biological and ecological challenges.

During these field explorations, students observed and appreciated various naturally occurring phenomena. They gained insights into the diversity and complexity of both local and regional ecosystems, witnessed intricate interactions among living organisms, and explored the dynamic relationships between organisms and their immediate environments. They also studied the different stages of ecological succession, examined how individual organisms and entire populations respond to environmental stressors, and analyzed how communities react to various types and intensities of disturbances. Through these observations, students developed an understanding of why certain species are more resilient to disturbances, while others struggle to recover.

Beyond ecological interactions, the field experience provided a deeper understanding of key principles in ecology, biogeography, and conservation biology. Students gained first-hand knowledge of species distribution patterns and the ecological factors influencing them. They also learned about the importance of conservation efforts, particularly in protecting endangered and threatened species. These experiences reinforced the significance of legal protections and conservation strategies aimed at preserving biodiversity, ensuring that future generations inherit a rich and thriving natural world.

Additionally, the field trip fostered a sense of curiosity and scientific inquiry, encouraging students to ask critical questions about environmental sustainability and human impacts on nature. By immersing themselves in direct ecological observations, they developed a greater appreciation for the interconnectedness of life and the delicate balance that sustains ecosystems. This hands-on learning approach not only enriched their academic understanding but also inspired a commitment to environmental stewardship and scientific exploration.
